REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed modular-type linear motor including, inter alia, connectors...wherein if an in-side connector of one of said armature blocks has terminals in a sequence of phases u, v and w, an out-side connector of said one of said armature blocks has terminals in a sequence of phase of v, w and u. In contrast, Kawada, Fig.5, the terminals 5 and 6 in block 20 for the phase windings 44/45/46 have the same sequence relative to an "in-side" connector at 50 and an "out-side" connector at 60.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 571-272-2029. The examiner can normally be reached on Monday-Friday, 9 am to 5 pm.
